

***Busted* covers the bases so you don't have to!**

Southwest Legal Services is aware of the extraordinary pressure federal budget cuts have placed on Public Defenders. And now with the additional demand on Public Defenders who represent inmates' clemency reviews, we have decided to help by reducing the retail price for any book purchased by a Public Defender.

If you are a Public Defender, *Busted By The Feds* and *Como Defender Tus Cargos Federales* will greatly reduce your workload. In over twenty years of business, the most common feedback we at Southwest Legal Services, Publisher, receive from defense attorneys is that there is a huge benefit to their representation when they give one of our books to a defendant. *Busted* explains so much of the legal system and the federal sentencing guidelines (as well as the Booker Decision and issues related to the Federal Bureau of Prisons), that it is almost like having an extra legal assistant. It speaks clearly to the defendant, in a language he can understand, about how the system works and what he is facing. A defendant who reads *Busted* quickly becomes the best type of defendant: one who is informed and ready to work with you intelligently without wasting your time. Your relationship with such a defendant will go up a quantum leap, and the savings to your time will be substantial.

We at Southwest Legal Services are also aware of the time problems facing Public Defenders in traveling to and getting admitted to county jails and federal holding centers to meet with their clients. We know that many clients cannot easily arrange attorney-client phone calls, and when they do, often those calls are not as private as prison authorities represent them to be. Reports of monitoring attorney-client email communication by federal prosecutors have become so widespread that such communication through the TRULINCS system should now be avoided. Basically, the only reliable communication is often direct communication, but that can take a great deal of time. If you are a Public Defender, you want to save that time for where it is really needed: the particulars

of a defendant's case where your expertise is a must. For the basics, help yourself (and your client) by letting *Busted* do the work for you.

Many clients of Public Defenders are Latinos who cannot speak English. *Como Defender Tus Cargos Federales* can be a godsend for such clients and for you too. This book, the Spanish translation of *Busted*, speaks to a defendant in his language, so you don't have to.
